

**MOBIWOLF**  
MOBILE APPS DEVELOPMENT

# MOBIWOLF Agency presentation

# Intro

**Mobiwolf** was founded in **2010** by **Oleksiy Karaykoza (CEO)** and **Sergi Adamchuk(CTO)** who has impressive IT background: Technical University graduates, working in banking system, working in big software development company on huge outsourcing projects, governmental project, interactive agencies, start-ups.

The **idea** was to build flexible team of professionals that would provide high quality mobile application development and integration services to their customers.

More info on our website [mobiwolf.com](http://mobiwolf.com)

**Since 2010**

That's a long way

**73 happy customers**

And many clients

**151 different projects**

And a lot of work done

**23 customer's countries**

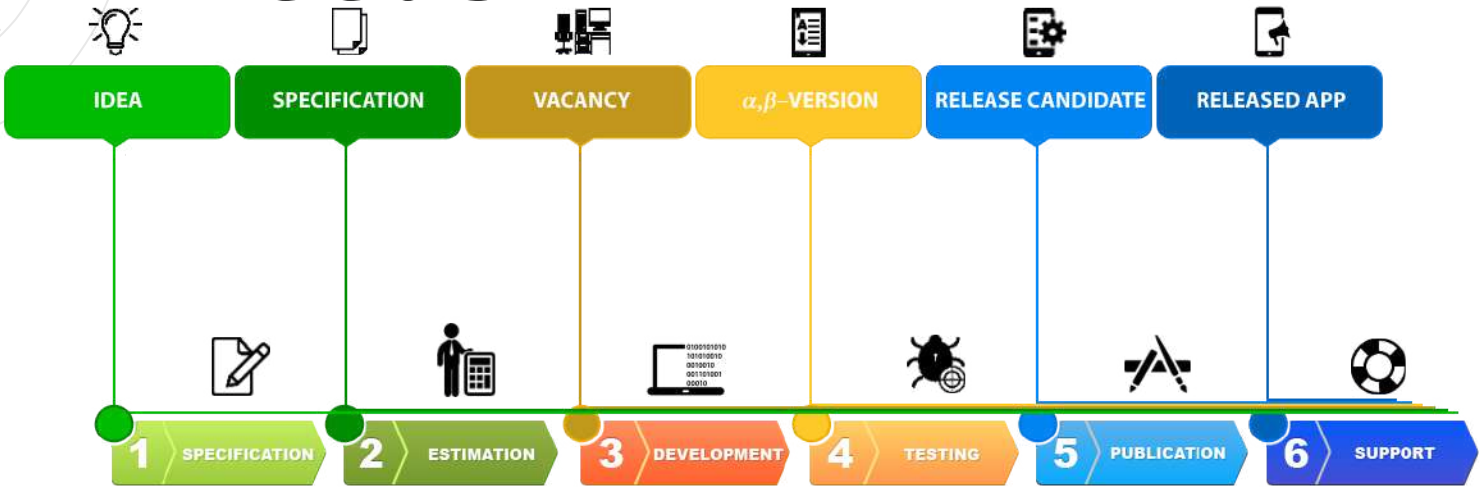

Worldwide experience and success

# Advantages

- Experienced Team from eastern intelligent IT outsourcing center of the Europe (Kyiv, Ukraine)
- Flexible management, no bureaucracy, ready to find the best convenient way of WIN-WIN collaboration
- Reasonable prices
- Long-term support
- Honesty

# Our process is tailored to customer needs

# Approach

1

## Cost effectiveness

Our company tries to find more convenient payment schema to each client

2

## Quality

Testing is one of the most important stages of verification of software development project quality. We use TDD!

3

## Agility

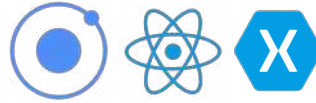

Mobiwolf team have successfully adopted Agile software development methodology

3

## Clear code

using OOP principles, refactoring

# Technologies

## Back-end & Web

# Team

- Key management positions are occupied by business partners with huge (15 years) enterprise level software development experience
- Financial health has been ensured by wise financial management over the time of company existence
- We hire only high skilled and talented developers
- Hiring additional Android, iOS and back-end developers, UI/UX designers and testers are always possible on Ukrainian market
- Friendly environment inside the team motivates the personnel and the customers
